

Abhishek Kumar Singh
UG (IV Year II Semester)
Integrated M.Tech. Geological Technology
Contact No: 9088314796
Email: abhishek_ks@es.iitr.ac.in
Registration No: 22410003/2026

Area of Interest
Web Development, Finance, Web3, Geology & Consultancy

Education

Year	Degree/Examination	Institution/Board	CGPA/ Percentage
2026	Int. M.Tech 4th Year	Indian Institute of Technology, Roorkee	6.368
2020	Intermediate (Class XII)	Ratnakar North Point School	65.50 %
2018	Matriculate (Class X)	Agrasain boys' School	74.60 %

Internships

Frontend Development | R K Technical Support December 2024 - January 2025

- Completed a Frontend Developer Internship at R K Technical Support, from December 2024 to January 2025. The internship involved active participation in the design and development of responsive and user-friendly web interfaces using HTML, CSS, JavaScript, React, and Tailwind. Responsibilities included collaborating with team members to implement modern UI/UX practices, contributing to the development of frontend components, and adapting to new technical challenges. The performance during the internship was noted as outstanding, with recognition for valuable contributions to ongoing projects.
- Contributed to real-time bug fixes and UI enhancements

Full-stack development | GRID REPUTATION May 2025 - June 2025

- Completed a full-time internship as a Frontend and Backend Developer (MERN) at Grid Reputation Technologies Pvt. Ltd. from May 2025 to June 2025. Contributed to the design, development, and optimization of the company website using modern web technologies including HTML5, CSS3, JavaScript (ES6+), and React.js for creating responsive and dynamic user interfaces. Backend responsibilities included developing RESTful APIs with Node.js and Express.js, managing databases using MongoDB, and implementing secure authentication using JWT. The work was carried out as part of a collaborative development team, with tasks strategically distributed based on individual skills and areas of expertise. Also worked on integrating AWS S3 for media handling, utilized Git, GitHub, and Postman for version control and testing, and deployed frontend components using Vercel. Followed agile methodologies and actively participated in sprint discussions and code reviews, delivering solutions that were technically sound and aligned with industry standards.

Operation and R&D | S RAJ INFRA PVT LTD May 2024 - July 2024

- Completed an internship in the Operations Department at S R Infra Pvt. Ltd. from May 2024 to July 2024. Engaged in key operational functions related to the planning, coordination, and execution of real estate projects. Contributed to efficient resource utilization, quality control, and compliance management. Worked collaboratively as part of a multidisciplinary team, with responsibilities allocated based on individual strengths and operational relevance. Demonstrated strong organizational skills, attention to detail, and a commitment to understanding real estate processes and operational workflows. The internship experience provided practical exposure to the functioning of real estate operations and strengthened professional competencies in a corporate environment.

Projects

Valuation and Investment Analysis of Emerging Indian E-Commerce Players | Finance Club May 2025 - June 2025

- Conducted a comprehensive strategic and financial evaluation of high-growth e-commerce startups in India, including Nykaa, Lenskart, Meesho, Zepto, and Udaan. The project analyzed business models, revenue growth, profitability metrics, and funding data to assess market potential and investment attractiveness. Employed both quantitative (EBITDA, CAC, LTV) and qualitative (market positioning, operational efficiency) frameworks to benchmark performance. Identified key trends such as quick commerce, social commerce, and B2B digitization driving the sector's expansion. The project concluded with actionable investment recommendations, emphasizing sustainable unit economics, scalability, and risk assessment. Work was carried out collaboratively in a team setting, with responsibilities distributed based on individual strengths in financial modeling, market research, and strategic evaluation

High Bid: An end to end Auction App in Full Stack Web Development | Ravindra bhawan Techbonanza April 2025 - May 2025

- Developed a scalable web-based platform enabling users to create and participate in live auctions with real-time bidding functionality. Implemented WebSocket technology to handle concurrent user interactions and live updates, ensuring a seamless and responsive bidding experience. Integrated secure authentication, user session management, and transaction handling to protect user data and maintain auction integrity. Designed intuitive UI components to enhance user engagement and accessibility across devices.

Structured tracker and statergy for crypto launching,events,optimizing ROI using manual analytics and platform research. | Self Project

February 2025

- A structured crypto launch tracker helps identify and analyze early-stage opportunities in emerging tokens like LayerEdge, Blum, and iAgent. By monitoring beta phases, tokenomics, launchpads, and community growth, users can manually assess ROI potential. The strategy includes tracking prelaunch quests (e.g., Zealy), whitelist access, and post-launch token performance. Manual analytics of token unlocks, community hype, and narrative alignment ensures smarter investment decisions. This method combines platform research with real-time market evaluation to optimize returns, especially for projects with strong narratives like AI, ZK, and Layer 2. Staying ahead in crypto requires informed, data-backed positioning before mainstream adoption hits.

Field Training-1 (Geology) in Rishikesh, Gharwal, Chamoli, Srinagar and Joshimath-Uttrakhand | Indian Institute of technology Roorkee

April 2024 - April 2025

- The field training aimed to provide field knowledge of the Siwaliks and Inner Lesser Himalayas, focusing on geological aspects such as lithology, stratigraphy, and structural features.
- Key objectives included analyzing Middle Siwalik exposures, determining dip angles and strike using a Brunton compass, and studying clastic rock formations and glacial deposits. It also examined sedimentary structures, Glacial Lake Outburst Floods (GLOF), and the Alaknanda Rivers geomorphological evolution. Additionally, the study covered magmatic dykes, the Kaliasaur landslides impact on NH-58, and high-grade metamorphic rocks like quartzite and schist, enhancing understanding of geological processes and landscape evolution.

Field Training-2 in NESAC, Meghalaya -ONGC Jorhat,Assam | Indian Institute of technology Roorkee

January 2025

- At NESAC (North Eastern Space Applications Centre, Meghalaya), the training focuses on remote sensing and GIS applications in geology. Students learn to interpret satellite imagery, analyze Digital Elevation Models (DEMs), and perform landslide hazard mapping. Ground-truthing is done to verify satellite data in the field, along with drone surveys and GPS mapping. The training emphasizes understanding the geology of the North-Eastern region, including the Shillong Plateau and Himalayan foothills.
- At ONGC Jorhat (Oil and Natural Gas Corporation, Assam), the training revolves around petroleum geology and hydrocarbon exploration. Participants are introduced to well logging techniques, seismic data interpretation, and subsurface mapping. Field visits to drilling rigs, production stations, and seismic units provide hands-on exposure. Students also learn to analyze drill cuttings, core samples, and prepare lithologs. The geology of the Upper Assam Basin and its petroleum system is a key focus, along with reservoir characterization and basin modeling

Awards / Scholarships / Academic Achievements

- Secured Global Rank 73 in Proggy-Buggy International Programming Contest-2025 conducted by DataArt.
- Secured 6012th International rank in International Olympiad of Science

Skills

Computer languages	C++ ,HTML,CSS,JavaScript,MATLAB
Software Packages	Git,GitHub,React Js, Node Js,MongoDB,ExpressJS,VS code,Postman,GIS
Additional Courses	Sociology(HSS-02)
Languages Known	Hindi,English,Bengali

Positions of Responsibility & Extra Curriculars

Manager,Web Development | Think India,IIT Roorkee

October 2024 - June 2025

- Contributing to the design, development, and maintenance of web-based platforms and event websites for Think India initiatives.
- Collaborated with a team to build responsive and user-friendly web applications using HTML, CSS, JavaScript, and modern frameworks.
- Managed and updated content, optimized site performance, and ensured seamless user experience for club events and outreach programs.
- Played a key role in organizing National Convention, workshops, and awareness campaigns aimed at promoting social and national causes through technology.

Operation Manager | Student Mentorship Program, IIT Roorkee

September 2024 - June 2025

- Assisted in managing the Student Mentorship Program at IIT Roorkee, supporting the entire UG freshmen batch.
- Collaborated with 240+ mentors and a core team of 75+ members and contributed to developing a framework to enhance mentor-mentee interactions and support first-year students' academic and personal growth.

Maintenance Council Member, Ravindra Bhawan | IIT Roorkee

September 2024 - May 2025

- Actively contributed to the efficient upkeep and management of hostel infrastructure, addressing student concerns related to maintenance and utilities. Collaborated with council members and administration to ensure timely resolution of issues, while maintaining hygiene and livability standards. Played a key role in coordinating repair schedules, communicating feedback, and implementing improvement initiatives to enhance the overall residential experience.
